TRAILER TO WATER

One vessel, six jobs

Swap the attachment, change the job.

- **Debris bag** · 150 lb a load
- **Oil skimmer** · 2–20 gal/min
- **Vegetation cutter** · to 5 ft deep
- **Herbicide sprayer** · 50 gal tank
- **Debris plow** · 15 ft wide
- **Survey sensors** · bathymetry

Built to perform

Launches from a utility trailer.

- 150 lb debris capacity, emptied in 2 minutes
- 20-hour battery life
- Cleans 5 acres per hour
- 5 mph operating speed
- Fully autonomous or remote-controlled
- Charges from a standard wall outlet

Why it pays

Cleaner water, smaller crew.

- Save up to $15K a year in labor
- No one exposed to oil, bacteria or toxic algae
- Zero emissions on the water
- Reaches slips and corners crew boats can't
- Rover as a Service: no capital request

> *It's been really successful for us, especially in accessing areas that you simply wouldn't be able to reach from the land side.*
